

Wisdom School

Prospectus

Director's Message

I feel an enormous sense of privilege to be associated with such an outstanding academic institution which has the potential to be the best in the country. Wisdom is a hugely exciting place to be. It is a school where pupils are taught to think by teachers who inspire them.

We aim to create a safe, nurturing yet challenging environment that is built on positive relationships; developing the whole student – emotionally, socially and academically. We care for and appreciate each of our students as the unique individuals that they are, each with distinct talents, interests and needs, and each with differing learning styles.

At Wisdom, we believe in inquiry-based learning. Students are challenged to go beyond the accumulation of factual knowledge and to address the greater questions that frame our world. We celebrate creativity and originality as vital qualities that equip individuals to reach new horizons of knowledge, appreciation and understanding

Students who graduate from Wisdom are typically confident, gregarious, dynamic, entrepreneurial and empathetic. They try new things; they ask probing questions; they dare. If you have an appetite for challenge and an ambition to make a positive impact on our world, Wisdom could well be the school for you.

We hope you can visit us soon.

Julian Egbert

Principal's Message

*Tell me and I'll forget;
Teach me and I may remember;
Involve me and I'll understand - Confucius*
(551BC-479BC)

We believe a child is curious by birth and is eager to learn new things every moment. So we provide learners a friendly environment, where they explore the world around them. We also believe the school's major job is to develop the most important skills in children like patience, coordination, concentration, listening skills, cognitive skills, decision-making skills, and social skills. All researches across the globe have witnessed that these skills can be developed with games and activities. We not only have such scientific games but also integrate activities with their current lessons and concepts. So there is lots of fun in learning.

We also discovered how the children develop a love for academics which is every parent's topmost concern. Introducing Magic-Pot magazine in Level-II and Champak in Grade 1 are some of them.

I wish and assure a great scholastic success to your child.

Neelam Pilania

Founder's Message

When my daughters were growing up, I always envisioned a school like Wisdom, a school where children were taught how to think but not what to think, a school which equipped the students with skills but never spoon-fed them, a school where the students had the freedom to ask questions, a school where students love coming to school and often turn up on Sundays too! And slowly but steadily, I alongwith my marvellous team after years of intensive research, experiments and long hours have worked towards creating the school of my dreams, we are not there yet, but we are closer to the dream everyday. And it is not only the school of my dreams, but I strongly believe it is every parent's dream to watch their child blossom into the best version of themselves in an environment which is both nurturing yet a preparatory ground for real life and at Wisdom, we provide just that. I truly believe that it is a blessing to have children, to be responsible for another human's growth and development and to see them achieve new heights. The early childhood days are the formative years of shaping the child's personality to acclimatise them for every situation. And at Wisdom, we are uncompromisingly committed to this endeavour.

Our belief system finds its roots not only in Indian philosophy but the very best of the international thinkers. I personally am inspired by a Russian writer Anton Makarenko's book "A Book for Parents"(1915), wherein he writes that "In Russia, a child is not only parent's responsibility, but the nation has to collectively collaborate to achieve the best." I urge the society, educators and parents to join me as a team to make this dream come true. I strongly believe that together we can and together we will. Come what may Team Wisdom is going to be continually working to achieve this. And as parents and guardians, your support will empower us. There is no substitute to informed and involved parenting. Your belief will write the success story of your child.

We have taken a step forward and seek your blessings in order to do something great for your ward, the society and our country.

Looking forward to a lifelong association.

Gift your child, a life at wisdom.

Haripal Pilonia

Chess helps him to have patience, better concentration and seating capacity

"When my father comes to play with me, half of the time he is IN the phone. I hate mobile phones."

Try This

When you go out to play with your child leave back cell phone at home.
Cell phones are for YOUR convenience not for caller's.

Myth

“अभी छोटी है। 2-3 साल तो किसी भी स्कूल में डाल देते हैं। बड़ी होगी तब अच्छे स्कूल में डाल देंगे।

“इन्ही सालों में बच्चे का मानसिक विकास होता है।
यदि नींव सही नहीं बनी तो महल नहीं बन सकता।”

Today

Student's brain is overburdened with cramming & heavy syllabus. Writing with pencil is very painful before 3½ yrs.

Scenario I

Scenario II

Today

Student's brain is given full Freedom to explore the optimum potential for real development by puzzles, fun, music, dance, stories, games, colouring, pictures books etc.

↓ **After 10 years same class, same syllabus, same students.** ↓

- ☹ Study is boring. No time to play, No fun in life.
- ☹ Lots of home work. It takes me 3 hours to complete it. Then 1 hour tuition.
- ☹ In spite of hard work my score is 60 to 80%.
- ☹ Mom & Dad are not happy with my score.

I DON'T WANT TO STUDY

- ☺ Lots of fun in life. It takes only 1 hour to complete home work.
- ☺ Tuition? I don't need it.
- ☺ Lots of time to play indoor & outdoor games. I read other books as well.
- ☺ I score 90% ± and my parents are very happy.
- ☺ I love my school and my teachers.

LEARNING AT SCHOOL IS ENJOYABLE

To understand more please visit school website www.wisdomschoolhisar.com and study thoroughly "Parenting Book". You can download it free!
Please note Wisdom School follows scenario-II.
